

The California Industrial and Technology Education Association will hold its 83rd annual state conference in conjunction with the ITEEA International Conference on March 15 - 17, 2012 at the Long Beach Convention Center in Long Beach, CA. The CITEA program will reflect the California practices of a hands-on, skill based, application of STEM principles in the classroom. Attendees to the conference will have access to both the California and the ITEEA programs. There is something for every interest, in every area, and every discipline. Find out more on the CITEA.org and ITEEA.org.
