

ITEA  
**SAN ANTONIO**  
 MARCH 15-17, 2007

**The 69th Annual ITEA Conference in San Antonio will be here before you know it. Have you made your reservations?**

Education is currently undergoing major changes. Local, state, and national educational standards require teachers not only to study, implement, and assess learner outcomes, but also to provide meaningful, engaged learning for a very diverse student population. Teachers are expected to understand emerging standards and views of learning, and to change their roles and practice accordingly. Teachers who were prepared for their profession prior to the reform movement may not be prepared for these new practices and roles. In working toward change, teachers need to continually be involved with professional development.

All teachers must realize that professional development is a continuous, lifelong process. What better way to stay informed of current Technology Education issues than to attend the Annual ITEA Conference, March 15 – 17, 2007 in San Antonio, Texas.

**Why should you plan to attend the 2007 ITEA conference?**

- To be inspired by prominent speakers at the general sessions.
- Learn best practices from experts each offering their valued perspectives at nearly 100 interest sessions.
- Gain practical knowledge and examples at interactive and hands-on workshops.
- Discover the latest state-of-the-art products at the exhibitor trade show.
- Build your network of scholarly contacts.
- Spotlight your TIDE activities by participating in *The Teaching Technology Showcase*.
- Celebrate and honor outstanding colleagues for their contributions to the profession.
- Enjoy extended networking and fun during the special social events.
- Bring your spouse to take advantage of the exciting guest program.
- Experience the history, culture, and excitement that San Antonio has to offer.

Return to your school motivated and inspired with new tools and techniques to be the best Technology Education teacher you can be.
