

IDEAGARDEN

Bring what you know and watch it grow!

ITEEA's IdeaGarden Forum is a free resource offered to registered ITEEA website users.

IdeaGarden is a educator-to-educator networking tool for those wanting to learn more about teaching Technology and Engineering Education for all students through an Integrative STEM Education approach. This online sharing of information is an optimal way to share your best practices in delivering Technology and Engineering Education. The professionals who comprise the IdeaGarden will add their expertise and responses to the questions posted.

JOINING IS EASY

Create an account on the ITEEA website and log in. Select IdeaGarden from the Community drop-down menu. Subscribe by clicking the "Join Group" button to the right. Click once and you will instantly be a member of this group. It's that easy! Posts come straight to your email Inbox or can be accessed from the ITEEA website.

ALREADY PART OF IDEAGARDEN?

You undoubtedly have valuable resources, knowledge, and insights to share with other Gardeners. Posting a question, a comment, or responding to another comment is a great way to network, share expertise, and build the technology and engineering community of practice.

GET ANSWERS OR HELP EASILY

In addition to seeking answers to questions through active posts, older posts are archived for easy retrieval by searching the topic. Filtered categories help you find the posts related to the topics that best match your search.

Sow the Seeds!
Let's **Grow** the Garden!
