FOR IMMEDIATE RELEASE

ITEEA Updates COVID Requirements for 2022 Conference

RESTON, VA, October 29, 2021 - ITEEA has updated its COVID-19 requirements to be in compliance with the current laws of the state of Florida during its 2022 Conference in Orlando. As the COVID-19 situation evolves, it is possible that further adjustments will be made. ITEEA is committed to following federal, state, and local regulations and to ensuring the safest experience for all 2022 ITEEA Conference attendees. The updated requirements are:

- Based on guidance and recommendations from the federal Centers for Disease Control and Prevention (CDC) and other public health authorities, ITEEA is requiring all in-person attendees be fully vaccinated for COVID-19. Registrants must confirm they have been vaccinated at the time of registration. Exemptions will be considered for religious or medical reasons only by emailing iteea@iteea.org. ITEEA offers a comprehensive virtual conference option for those not able to attend in person.

- On site, attendees will be required to provide either proof of vaccination or provide a negative test result taken within 48 hours of the event. ITEEA will also require that all registrants sign an Acknowledgement of Personal Responsibility Form, agreeing to comply with all applicable requirements and ITEEA established protocols and releasing ITEEA of responsibility in the event of exposure to COVID-19.

- ITEEA will require attendees to follow federal, state, and local requirements in effect at the time of the conference.

Thank you for your understanding as ITEEA works to provide a valuable face-to-face conference experience while prioritizing the health and safety of our community. If for any reason you are not able to attend in-person, we encourage you to join us virtually.
