

## PATT -15

### TECHNOLOGY EDUCATION AND RESEARCH: TWENTY YEARS IN RETROSPECT

April 18-22, 2005

Papers (alphabetical by author's name)

[\*Technology Education in South Africa Since 1998: A Shift From Contents \(Conceptual Knowledge\) to Process-Based Learning Programs\*](#)

Piet Ankiewicz, Estelle de Swardt en Werner Engelbrecht

[\*A Case Study of the Inter-Relationship Between Science and Technology: England 1984-2004\*](#)

Frank Banks, Prof. Bob McCormick

[\*Engineering and Excellence: An Old-New Agenda for Technology Education in Israeli High Schools\*](#)

Moshe Barak

[\*The Centrality of Designing - An Emerging Realisation From Three Curriculum Projects\*](#)

David Barlex

[\*Technical Education in Scotland - Fit for Purpose?\*](#)

Brian Canavan, Robert Doherty

[\*Is the Whole More Than the Sum of its Components? An Analysis of Technology Education in ORT Schools Around the World\*](#)

Alejandro E. Ferrari, Marcos Berlatzky, Mario Cwi, Luis Perez, Dov Kipperman, Sergey Gorinskiy, Osnat Dagan

[\*Technology Education in Scotland: An Investigation of the Past Twenty Years\*](#)

John Dakers

[\*Technology Education in South Africa Since 1998: A Shift From Traditional Teaching to Outcomes-Based Education\*](#)

Estelle de Swardt, Piet Ankiewicz, Werner Engelbrecht

[\*Mapping Reform in Scotland's Technology Education Curriculum: Change and Curriculum Policy in the Compulsory Sector\*](#)

Robert A. Doherty and Brian Canavan

[\*The Need to Change Pedagogies in Science and Technology Subjects: A European Perspective. Implications for Initial Teacher Education\*](#)

Wendy Dow

[\*Twenty Years of Educational Standards for Technology Education in the United States\*](#)

William Dugger

[\*Technological Education and Environmental Sustainability, a Critical Examination of Twenty Years of Canadian Practices and Policies\*](#)

Leo Elshof, Ph.D.

[\*Technology Education in Chile After Nine Years of Implementation From the Paper to the Classroom\*](#)

Francisca Elton

[\*Technology Education in South Africa Since 1998: A Shift to Decentralised Continuous Professional Teacher Development\*](#)

Werner Englebrecth, Piet Ankiewicz, Estelle de Swardt

[\*Changes and Progress in Elementary Technology Education\*](#)

Dr. Daniel E. Engstrom

[\*Analysing Technology Education Through the Curricular Evolution and the Investigation Themes\*](#)

Jacques Ginestie

[\*Can Twenty Years of Technology Education Assist 'Grass Roots' Syllabus Implementation?\*](#)

Ian S. Ginns, Stephen J. Norton, Campbell J. McRobbie, Robert S. Davis

[\*Women in Technological Society: A Challenge to the Modern School\*](#)

Dr. Sergey Gorinskiy

[\*Developments in Technology Education in Canada\*](#)

George J. Hache

[\*Manufacturing Change and Design and Technology\*](#)

Christopher Hughes

[\*A Shift From Traditional Teaching to the Development of Complex Thinking in a Technology Classroom in South Africa\*](#)

Maria Jakovljevic, Piet Ankiewicz, Estelle de Swardt

[\*The Developing Field of Technology Education in New Zealand: The Last Twenty Years\*](#)

Alister Jones

[\*Technology Education in Finland\*](#)

Tapani Kananaja

[\*Science and Technology Links in Israeli Secondary Schools - Do We Have a Reason to Celebrate?\*](#)

Dov Kipperman

[\*Reflections on the Last 20 Years of 'Designing' and Projections in the Future\*](#)

T. Lawler

[\*From Ideas to Fruition - External Funding and its Impact on Technology Education\*](#)

Gene Martin

[\*Changing Practice and Changing Lenses: The Evolution of Ways of Researching Technology Education\*](#)

Howard Middleton

[\*Innovation of the Concept and Content of Technology Education in the Czech Republic in Context with their Development in the Countries of Central Europe\*](#)

Hana Novakova, Ph.D.

[\*Comparing Perspectives: Comparative Research in Technology Education\*](#)

Dr. Margarita Pavlova

[\*The Last Ten Years: Change in Malta\*](#)

Mr. D. Purchase

[\*Are Girls Equal in Technology Education?\*](#)

Aki Rasinen

[\*Technology Education and the Influence of Research: A United States Perspective, 1985-2005\*](#)

John Ritz, Philip A. Reed

[\*The Inclusion of Food Technology as an Aspect of Technology Education in the English School Curriculum: A Critical Review\*](#)

Marion Rutland

[\*Unorthodox Methodologies: Approaches to Understanding Design and Technology\*](#)

Ken Stables, Richard Kimbell

[\*A Retrospective Look at What Was Essential During the Past 20 Years\*](#)

Kendall N. Starkweather, Ph.D., DTE

[\*Technology Teacher Education in South Africa\*](#)

Andrew Stevens

[\*A Change of Industrial Technology Education Curriculum and Development of a Design Learning Support System for Technology Education\*](#)

Sumiyoshi Mita, Toshiki Matsuda, Zyun Iwaki, Takahisa Furuta

[\*The Japanese Word "Gijutsu": Should it Mean "Skills" or "Technology"?\*](#)

Toshiki Matsuda

[\*Technology Education in South Africa Since: A Shift From Traditional Evaluation to a Process-Based Assessment Framework\*](#)

Elsabe Van Niekerk, Piet Ankiewicz, Estelle de Swardt

[\*From Dualism Towards an Emphasis on Talent: An Overview of Curriculum Development in Flanders\*](#)

Didier Van de Velde, Peter Hantson

[\*Artefacts and Cognitive Development: How do Psychogenetic Theories of Intelligence Help in Understanding the Influence of Technical Environments on the Development of Thought?\*](#)

Pierre Verillon, Colette Andreucci

[\*The Rhetoric and Reality of Technology Education in Hong Kong\*](#)

Ken Volk

[\*Technology Education in Australia: Twenty Years in Retrospect\*](#)

Dr. P. John Williams
